

Manufacturer's Certification Statement

This manufacturer's certification statement provides the documentation required to receive an energy tax credit for qualifying exterior windows and doors as defined by the ***Tax Relief, Unemployment Insurance Reauthorization and Job Creation Act***, signed into law on December 17, 2010. The credit covers windows and exterior doors supplied by Amcraft that meet or exceed ENERGY STAR regional criteria.

The thermal performance criteria for all Energy Star compliant Amcraft windows and doors have been independently tested and validated by the National Fenestration Rating Council (NFRC).

Amcraft Building Products, 1195 Prince Hall Drive, Beloit, WI 53511 has identified the qualifying Amcraft Products that are eligible for a tax credit under the guidelines established by the IRS.

The homeowner should save a copy of this document, the NFRC labels from the purchased window(s) and your purchase receipt in their tax file. These documents will serve as proof to the IRS that the exterior window(s) purchased qualify for the 2011 Tax Credit.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.
